ABDERRAZZAK LAKHAL

FULL-STACK DEVELOPER || WEB DEVELOPMENT ENGINEER

PROFILE

Creative and driven full-stack developer with a solid foundation in web engineering, system design, and modern application development. Currently pursuing a degree in Mathematics–Computer Science–Physics at Abdelmalek Essaâdi University, with hands-on experience building production-ready applications using React, FastAPI, Node.js, and PostgreSQL. Skilled in crafting end-to-end solutions — from intuitive UIs to robust backends — including AI-powered tools, real-time delivery platforms, and full-featured SaaS products. A fast learner with a passion for clean code, innovation, and turning complex ideas into seamless digital experiences.

PROJECTS

- **Livr'O** [React · FastAPI · PostgreSQL](#)
A complete delivery management web app connecting Admins, Managers, Livreurs, and Clients through a unified real-time platform. Features automatic pricing, downloadable PDF invoices with QR codes, an interactive GPS map, instant notifications at every delivery step, and a fully responsive design for both desktop and mobile.
- **StoryForge** [React · Node.js · AI-Powered](#)
An AI-powered story generator that transforms user prompts into fully crafted narratives. Choose a genre — Fantasy, Horror, Sci-Fi, Romance, or Adventure — and receive a complete story with title, summary, and rich prose. Includes a personal library with search, favorites, and story history.
- **ExamPlus** [PHP · MySQL · JavaScript](#)
A web-based exam preparation platform featuring user authentication, dynamic question generation, and interactive quizzes with a responsive interface optimized for students.
- **DariRent** [PHP · MySQL · Bootstrap](#)
A rental property management platform with full CRUD operations, image uploads, role-based authentication, and a personalized landlord dashboard for listing management.
- **ChatLink** [PHP · SQL · JavaScript](#)
A real-time private messaging app with secure session handling, instant message delivery, database-backed storage, and a responsive design for mobile and desktop.
